Programme

Course description

This course for school librarians and subject teachers will explore the meaning and importance of information literacy and identify practical strategies for supporting it through the library.

Expected learning outcomes

Participants can expect to gain:

- methodology and models for productive information retrieval and use
- techniques for helping students learn how to evaluate information sources critically
- strategies for widening students' search horizons
- ideas for developing a cross-curricular programme of information handling skills
- more awareness of the value of the library in fostering independent learning
- opportunities to share good practice

£75 SLA members, £85 Non-Members
Includes buffet lunch and morning refreshments

10.00	<i>registration and coffee</i>
10.15	information literacy and the
.....	library
